Great Websites for Young Students

It is often difficult to find websites for young children in which the children can navigate independently. Below is a list of Websites that I have found to be easy to use for students in Kindy and Pre-Primary. Some of the websites have activities for children throughout the primary years of schooling. Many of the websites have links to other sites and some overlap several curriculum areas. As outlined in the school policy we recommend students are supervised at all times when participating in activities online.

Enjoy playing and learning with your child on these websites.

Nursery Rhyme Videos
