Term 2, Week 4

Dear Parents,

Last term Room 2 students completed individual research projects on a famous person that was meaningful to them. They subsequently presented their projects to the class. In Term 2 we will be completing another research project, this time to be conducted both at home and at school. Students are to research a chosen topic of interest and present it to the class.

We will be looking at the following criteria:

- how well they engage and speak in front of the class
- knowledge of the topic
- written language conventions (punctuation, grammar and spelling), for PowerPoint and poster presentations
- appropriate length of the presentation

The presentation is to be between 2 and 5 minutes. Students may present their research in a manner appropriate to the topic. (PowerPoint, poster, 3D model etc...).

I will provide time and guidance in class, but the project will also require after hours work from the students.

Due Date: Week 10, 30th June

Children will present their projects to the class during Week 10.
